

ADYUDA GHIFFARI RAMADHAN

Tangerang, Banten | adyudaghiffari@gmail.com
(+62) 813 8862 1511 | [linkedin.com/in/adyudaghiffari/](https://www.linkedin.com/in/adyudaghiffari/)

A multidisciplinary Physics Graduate from IPB University with a powerful fusion of analytical thinking, operational leadership, and creative execution. Proven experience managing business operations as a General Affair Manager, alongside a strong track record in visual storytelling as a Graphic Designer and Illustrator. Highly skilled in translating complex data into engaging visuals, backed by professional cohorts in Machine Learning (Bangkit Academy) and Cloud-Big Data (KOICA). A versatile problem solver who thrives at the intersection of Technology, Design, and Business Innovation.

EDUCATION

IPB University, Bogor

August 2021 – June 2026

- *Bachelor of Science (B.Sc.), Physics Degree*
- *Core focus: Theoretical and computational physics.*
- **Undergraduate Thesis:** "Analysis of Nucleon Separation Energy Based on the Macro-Micro Model in Liquid Drop Nuclei"

WORK EXPERIENCE

Rajin.id, Indonesia

January 2026 – April 2026

Freelance SNBT and Physics Tutor

- Educated and mentored high school students for university entrance exams (SNBT), breaking down complex Physics and logical reasoning concepts into simplified learning frameworks.
- Designed customized digital infographics and visual aids, leveraging illustrative storytelling to boost student engagement and improve average mock-exam scores by around 15%.
- Analyzed individual student performance metrics to tailor personalized teaching strategies, ensuring high information retention and adaptive learning.

Dehaga.id, Indonesia

January 2025 – June 2025

General Affair Manager

- Spearheaded and optimized day-to-day administrative operations and asset inventories across FnB setups, reducing operational supply discrepancies by 5-10%.
- Managed vendor contracts and procurement protocols, negotiating terms that effectively cut unnecessary maintenance costs by 10% while maintaining top-tier facility standards.
- Coordinated cross-functional internal updates, employee welfare programs, and meetings to ensure corporate policy compliance and enhance team alignment.
- Standardized legal documentation and filing systems for corporate contracts, local permits, and operational asset logs.

Department of Physics - IPB University, Indonesia

July 2022 – June 2023

Physics Laboratory Assistant

- Instructed and supervised more than 150 undergraduate students during weekly Basic Physics laboratory sessions, maintaining a zero-accident record through strict safety enforcement.
- Calibrated and maintained complex scientific tools and experimental equipment, securing precise data collection before and after lab procedures.
- Evaluated and graded more than 50 comprehensive research lab reports weekly, delivering structured, actionable feedback under lecturer supervision.

Bahasa QnA, Indonesia

August 2021 – July 2022

Graphics Designer & Illustrator

- Conceptualized and designed +150 educational carousels, transforming abstract linguistic and language materials into highly engaging, cartoon-illustrated Instagram posts.

- Engineered intuitive visual hierarchies and custom typography layouts that simplified complex topics, boosting organic page shares and saves by +20%.
- Created reusable brand style guides and asset templates, ensuring visual design consistency across the organization's entire digital media ecosystem.
- Collaborated with content strategists to align visual artistic direction with communication goals, maximizing audience engagement and content clarity.

CERTIFICATION AND NON FORMAL EDUCATION

KOICA-Silla-UMN 4th Industrial Revolution Technical Center

April 2026 – June 2026

Cloud - Big Data Cohort

- Analyzed structured and unstructured datasets using **Python** and modern big data concepts to generate actionable insights through data preprocessing, exploration, and visualization.
- Developed practical skills in **Machine Learning**, **Tableau**, **Power BI**, and **QGIS** for predictive analytics, business intelligence, interactive dashboards, and geospatial analysis.
- Built **Internet of Things (IoT)** solutions by integrating sensors, cloud platforms, and data pipelines for real-time monitoring and analytics.
- Collaborated on multidisciplinary technology projects, applying cloud computing, data analytics, and visualization techniques to solve real-world problems and support data-driven decision-making.

Bangkit Academy by Google and GOTO

February 2024 – July 2024

Machine Learning Engineering Cohort

- Engineered, trained, and evaluated predictive Machine Learning models using Python, TensorFlow, and cloud infrastructure.
- Executed data preprocessing, data cleaning, and feature engineering workflows on extensive datasets to optimize model performance metrics and reduce loss.
- Collaborated within an agile cross-functional team for the Capstone Project, acting as the core ML Engineer to seamlessly deploy and link predictive intelligence into a working app prototype.

ORGANIZATIONAL EXPERIENCE

IPB Senior Resident, Bogor

August 2023 – July 2024

Staff of Media and Branding Division

- Directly supervising, mentoring, and managing +50 first-year undergraduate students (PKU IPB).
- Facilitated day-to-day community operations, conflict resolution, and character building programs within the mandatory dormitory ecosystem.
- Designed promotional posters and short-form video content using Adobe Creative Suite (Photoshop, Illustrator, Premiere Pro) to drive engagement and maintain a consistent visual identity for residency programs.

IPB Student Executive Board, Indonesia

October 2022 – September 2023

Leader of Publication and Media in Ministry of Academic and Achievement

- Led and mentored a multimedia creative team of +30 members for major university events, including IPB Model United Nations 2023 and IPB Appreciation Week 2023.
- Formulated a standardized visual identity system for academic programs, boosting digital media reach and event attendance by 20%.
- Oversaw the design and publication of weekly academic bulletins, podcasts, and digital coverage, streamlining student-targeted communications.

IPB Dormitory Studio, Indonesia

August 2021 – July 2022

Leader of Multimedia Division

- Directed a team of 8 creative personnel in producing motion content, video campaigns, and graphic assets for internal and external student community programs.
- Established multimedia brand guidelines, securing visual design consistency across multiple student network platforms.

SKILLS

- **Design & Illustration:** Cartoon Style Illustration, Character Design, Visual Identity & Branding, Storyboarding, Typography, Digital Layouting.
- **Creative Tools:** Adobe Photoshop, Adobe Illustrator, Adobe Premiere Pro, Figma, Clip Studio Paint, Canva.
- **Technical & Data Analytics:** Python Programming, Machine Learning (TensorFlow/Keras), Predictive Modeling, Big Data Architecture Concepts, Cloud Infrastructure Fundamentals, Data Preprocessing & Cleansing.
- **Scientific & Analytical:** Theoretical Physics Frameworks, Advanced Mathematical Modeling, Computational Physics, Statistical Data Analysis, Research Methodology.
- **Management & Leadership:** Agile/Scrum Team Collaboration, Project Management, Operational & Vendor Management, Team Mentorship, Conflict Resolution, Cross-functional Communication.
- **Languages:** Bahasa Indonesia (Native), English (Professional Working Proficiency).
